1. DEPARTMENT OF MANAGEMENT STUDIES

Every year, after the completion of 12th exams in March many students is becoming busy choosing their career options and searching for various courses and their admission procedures. BBA is one of the course that create new avenues for students after 12th. The aim of a BBA course is to inject basic management skills to students. The BBA degree imparts basic management and business skills to the students seeking a bright career in future. After taking admission to BBA course, a student can be a leader for tomorrow. The BBA course is structured in such a way so that it helps students learn basic management skills and effective communication skills as well. Bachelor's degree programs in business administration/business studies/management studies are called by various names by the different universities. Hence, you are likely to come across BBA, BBS, MBA courses, all of which are more or less the same thing.

What is BBA?

Bachelor of Business Administration (BBA) is a three-year fulltime course that is designed to give rise to future professionals, rather than mere 'degree holders'. This course keeps in mind the needs of the industry where the students would ultimately find employment, and, therefore, has a completely different approach to learning.

WHY is BBA better than any other conventional degree?

Answer lies in three points: -

A professional course: BBA goes beyond bookish knowledge. Instead, it sharpens students managerial skill through organizing Management Fest, presentations, Ad-Mad, case studies, industry visits, guest lectures by professionals etc. that helps students to deal with real life situation better.

A Structured Syllabus: Maximum subjects taught in BBA course, be it areas of management like marketing, finance systems, human resource management etc. Theoretical concepts learnt in the classroom are supported by practical experience in the form of projects, presentations, industry visits and summer placements, thereby making the course a complete learning experience.

An edge over other undergraduate courses: The limited number of seats in the BBA means that only the best students get selected. They are then trained by some of the finest faculty members. Add to this, the guest lecturers delivered by industry experts, and you know that BBA graduates have a definite edge over others.

What after BBA?

The obvious choice after BBA in opting for post graduation----an MBA. Having a prior knowledge of different aspects of management, BBA graduates often find it easier to crack MBA entrance exams, as compared to other graduates. After completing the BBA course students also have the option of joining MNC's as a management trainee/ executive trainee/sales specialist/ in any of the following sectors. Banking, Consultancy, Finance, IT Companies, Advertising Agencies etc. or carry their own company to next height of success. For those students, who don't want to go for an MBA directly, there are abundant career opportunities after BBA. So go ahead.

Objectives of the Course

1. To prepare highly skilled professionals, with a strong conceptual and theoretical background in the field of management theory and its application.
